THEIR FUTURE IN YOUR HANDS

# WHO WE ARE?

Ampelos Italia was founded in 2004 by a group of agronomists and food technologists with the aim of carrying out agri-food, educational and health development projects.

**AMPELOS LUXEMBOURG** was established in December 2021 by two Luxembourg based Ampelos Italia partners and a group of friends and professionals united by the desire to apply their skills in **international cooperation** projects that tackle **concrete needs** with the help of active and **reliable local partners**.

Sectors of intervention of the projects carried out over the years: Agribusiness, Water, Education, Health, Emergencies.

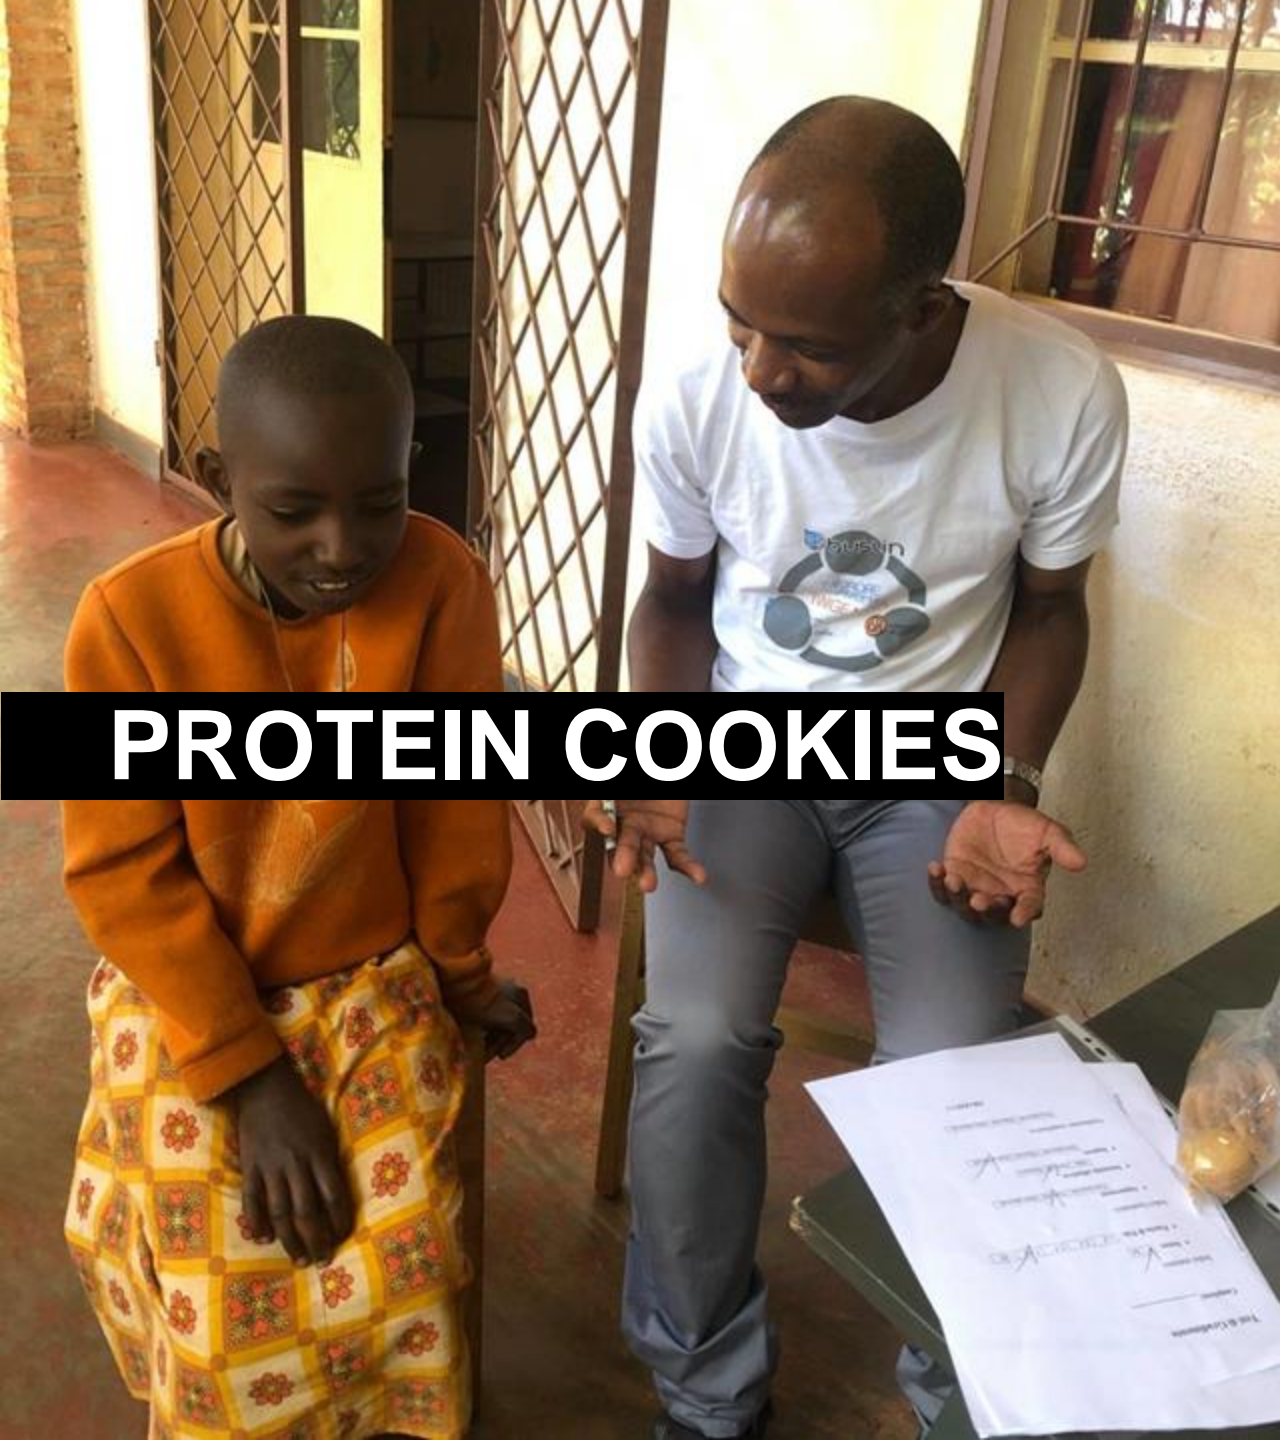

Beneficiary Countries: Eritrea, Ethiopia, Malawi, Burundi, Haiti, South Sudan, Benin

# SOME OF OUR ACHIEVEMENTS

# PROTEIN COOKIES

In collaboration with Bunpa (Burundi Nutritious Pastries), an NGO set up to fight malnutrition and poverty in Burundi, **WE LAUNCHED A LOCAL PRODUCTION** of a protein biscuit specifically developed to meet the nutritional needs of Burundian children, whose malnutrition rate is among the highest in the world.

The ingredients for this super-biscuit are easily available locally: wheat flour, soy flour, peanuts, vegetable oil, cane sugar, milk, eggs, and yeast (the protein amount equates to 15% of the biscuit).

During 2024 we plan to implement a semi-industrial manufacturing process that would enable us to increase production quantities and reach a higher number of people.

# THREE ANGELS

Three Angels is a medical center located in Kator, one of the poorest district in the city of Juba.

In 2015, the local diocese provided the nuns of Kator with land plot where a small temporary medical center was set up, with a catchment population of 30.000.

People started using the facility immediately and the number of patients has increased year after year.

Year	Consultation of adults	Consultation of children	Vaccination	Antenatal care	Childbirth	Postnatal care	Lab.tests

# WATER WELLS

In collaboration with the St John Integral Education Centre and Ampelos Italia, we are continuing the construction of **water wells, in the Mangochi area, ensuring drinkable water to 1800 families and 3 primary schools, for a total of 20,000 beneficiaries.**

The objective is to provide drinking water at a reasonable distance from homes, preventing waterborne diseases, linked to consumption of contaminated streams and lakes (such as that from the lake) but also residents from traveling long distances every day to access water.

Currently, the first 5 wells have been completed\*

# WHY AMPELOS...

The Train

# T.RACEABILITY

You can **track our projects**; you can see what Ampelos is doing every day and where Ampelos stands in reaching the targets

# R.ELIABILITY

Since 2004 we have been developing projects in Africa. Our commitment, efforts and projects have been recognized and even awarded along our journey thanks to our reliability. **100% of the donations are utilized in the Projects.**

# A.CCOUNTABILITY

We are there and **we go there**! Ampelos members periodically go on site on site to verify the projects we finance together with your support. We are accountable for achieving the results our donors deserves

# I.NDEPENDENCE

We are **servants without being owned**: We act for the mutual interest of the local populations we help. Ampelos and its investments are not conditioned by religion, politics or any characteristics of the populations we seek to help

# N.ETWORK

We have **trustable Local Partners** in Africa: priests, sisters, missionaries, with whom we have worked with since the inception of Ampelos Italia. Not a single cent is wasted or lost

...If you don't like the train

**TAKE THE PLANE:** You can still fly out with us to see our impact first hand

# GO THERE...

Malawi August

Ampelos representatives regularly **fly to Africa** to follow up on the projects.

Trips to Africa are a good opportunity to see our impact first hand and see the projects turn into reality. **And why not help locals first hand...**

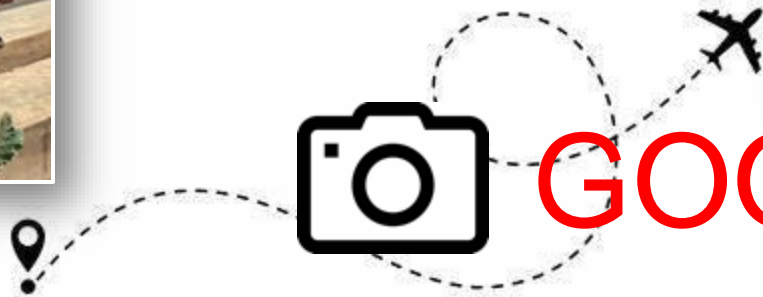

“

Traveling to Malawi was a unique life experience that I will remember forever, experiencing the first-hand the outcomes of our support, helping locals first-hands and be repaid by the smiles of women, men and children. All this is priceless

# THE FOUNDER...

*I have always imagined Ampelos as a train, with open doors, to give everyone the opportunity to get on and share this beautiful journey with us members, supporters, friends who share our dreams and support us and allow us to make them come true. And speaking of support and sharing: Ampelos means vine in Greek, not only because we found them in Eritrea at the beginning of our journey but also because they are plants that embrace each other, support each other and share the soil, water and sun to give away their beautiful and delicious fruits.*
